- Programming Languages: Angular, Java, JavaScript, .NET Framework, PHP
- Frameworks & Libraries: Spring Boot, Laravel, CodeIgniter
- Web Technologies: HTML5, CSS3, AJAX, jQuery, WordPress
- Tools & Platforms: Git, SVN, Jira, Microsoft Visual Studio, Eclipse IDE
- Databases: MySQL, Microsoft SQL Server
- Specialties: RESTful APIs, Payment Gateway Integration, Responsive Design

PROFESSIONAL EXPERIENCE

Software Engineer | Proitzen (Pvt) Ltd | June 2022 - July 2023

- Contributed to the Workforce module, maintaining the Request functionality and developing the Rostering front-end using Angular 8, ensuring an intuitive and responsive UI.
- Enhanced the Finance module dashboard, improving workflows and usability.
- Collaborated with cross-functional teams using Git for version control and JIRA for Agile project management.

Software Engineer | ResQ Solution (Pvt) Ltd | August 2021 - June 2022

- Led the development of a production tracking solution with Angular 7 and ASP.NET, integrating QR Code functionality to enhance tracking efficiency.
- Engineered a mobile-responsive web application, ensuring seamless usability across devices.
- Optimized database performance with stored procedures, reducing query latency.
- Architected and deployed RESTful APIs, improving system reliability and scalability by 25%.
- Utilized Git for version control and JIRA for project management.

Software Engineer | FindMyFare (Pvt) Ltd | March 2021 - May 2021

- Developed a responsive front-end using Angular, ensuring seamless compatibility across mobile and desktop devices.
- Migrated the front-end framework from AngularJS to Angular 6, enhancing performance, scalability, and maintainability.
- Implemented and maintained a robust data table for managing and displaying large volumes of user data.
- Managed user authentication and authorization using JWT (JSON Web Tokens).

Associate Software Engineer | Cooperative Insurance (Pvt) Ltd | April 2019 - March 2021

- Developed a General Insurance System using Angular 8 and Spring Boot.
- Reduced processing delays by 30% through key module optimization.
- Collaborated with cross-functional teams to implement system improvements.

Key Project Intern and Trainee Software Engineer | October 2017 - April 2019

Client: Subway Sri Lanka

- Developed a web application using Angular and Google Maps API for real-time driver tracking.
- Reduced delivery errors by 20% through enhanced tracking accuracy and functionality.

Client: DCSL Sri Lanka

- Designed and developed a Production Management System for 50+ sites.
- Improved task efficiency by automating workflows and integrating real-time monitoring and reporting.

Education

Bachelor of Information Technology

University of Moratuwa, Sri Lanka | 2015 – 2019

Languages

- English (Fluent)
- Sinhala (Native)

Soft Skills

- Strong analytical and problem-solving abilities
- Excellent communication and active listening skills
- Effective time management and deadline adherence
- Proven team collaboration capabilities
